Mine just came back last week. Fixed the code squelch problem and
something about a new VFO knob??
But it still exhibits the problem you described above.

I wouldn't necessarily rule out the glow plugs unless you actually removed
them.

> Ken..I own the 850..The reliability is better on the 990...

I beg to differ! I'm quite pleased with the reliability of
my FT-990 <knock-knock on the wood! :-> 'cause so far it
didn't give me a single problem, nor to anybody of my
friends, who seeing my 990 chose to buy similar rig
for themselves.

> The scaf filter is no great schucks...

??? I use/like this filter A LOT, on all manual modes.

> Difficult decision..

> But Id trade my 850 for a 990 in a minute because of overall

> quality. (also if 990 uses 24 volt finals..TX is better)
